

# 3 X Time

## Family

There have been many blue yesterdays  
Passed me by  
And as I sit here my time goes fast  
As I re-enact the past  
The past is gone but always very near  
Memories good and bad that I know dear

There have been many long nights  
Awake after days  
And thought of time and all of its ways  
And the melody that it plays  
The things I've done and all the friends I've met  
Now looking back there's nothing I regret
