

Real People

Killing Heidi

Learn to keep the pain you feel
Keep it in don't let it spill
Under lock and key, don't let it out
That's what secrecys about Make it all right, keep your eyes shut
Keep your eyes shut tight
What you feel ain't bad, there's no shame
There's no shame in being sad Place yourself in this little page
Limit your actions, don't be brave
In the shadow of everything
Your the one who's too afraid to win Make it all right, keep your eyes shut
Keep your eyes shut tight
What you feel ain't bad, there's no shame
There's no shame in being sad Feel the sharpness of the night
Walk into darkness, out of sight
Oh but just don't take that final step
You'll be missed, you know i care Make it all right, keep your eyes shut
Keep your eyes shut tight
What you feel ain't bad, there's no shame
There's no shame in being sad
