

Love Me Love Me

Big Time Rush

Make you love me again
Make you love me again[Carlos]
Million girls in the world but tonight Im alone, Im alone cause you cant come close
One girl that Im looking for, there there she goes
I lost you once so,
So Im asking now
Give me a chance this time around[James]
We were so young
Just having fun
Messed it up, had a love
That was beautifulWhen we dance
Heaven opens up
So I just thought that I would let you know[Chorus]
Baby, now I shouldve never let you go
So my heart is coming back for more
I want to hold you like I did before
So baby take my hand, take my handImma make you love me again (make you love me again love me again)
Imma make you love me again (make you love me again)
Imma make you love me again[Logan]
Tell you want my time
I want to make you mine,
In mind what you wanna do
Babygirl its up to you uh-up to you
Ill do what I have to, to get you back
Until you love, love me again
Oooh girl[James]
We were so young
Just having fun
Messed it up, had a love
That was beautifulWhen we dance
Heaven opens up
So I just thought that I would let you know[Chorus]
Baby, now I shouldve never let you go
So my heart is coming back for more
I wanna hold you like I did before
So baby take my hand, take my handImma make you love me again (make you love me again love me again)
Imma make you love me again (make you love me again)
Imma make you love me againI wanna make you,
Imma make you love me again

Baby, now I shouldve never let you go
So my heart is coming back for more
I wanna hold you like I did before
So baby take my hand, take my hand Imma make you love me again (make you love me again love me again)
Imma make you love me again (make you love me again)
Imma make you love me again [James]
Ey ey
Love me again
Ey Ey
Love me again
Ey Ey
Love me again
(Make you love me again love me again)
