

Everything

Bif Naked

My mother gave me one more reason
Not to call you on the phone
She told me chase girls like that
All your life you will wind up alone I guess I just would like to take you
Out for a cappuccino
You refuse my advances once again
I cant hear one more no I wish you would get over him
Ill change your mind about everything When I wink at you, you always
Turn the other cheek
I drilled a hole in the girls showers
So that at you I could peek I'd love to get you naked and throw you
In the back of my dad's car
I hear that if I get to third base with you
It wont be too far I wish you would get over him
Ill change your mind about everything As I grow older I feel better
About me and myself
I swear I never, ever once wished
I was anybody else Id like to tell you I think you should
Come up and see me sometime
I know that I could possibly make it
The best time of your life I wish you would get over him
Ill change your mind about everything
