We Ride

Sumo Cyco

Down here in my world there is no such this as superheroes
Wrong and right in black and white made of ones and zeroes
Gambling with our lives like we're in a casino
From Vegas take the train right into the infernoBlindly follow to tomorrowWe are the weapon, there's this tension, fire in the air
We are the weapon, there's this tension, fire in the airHear the signal in the air-air
A battle cry, so you beware-are
And if we die, we came prepared-ared
Tonight we ride, we feel no fear-earCommitted to the cause, cuz there is no more room for mercy
Man I be so bored with my words you try to hurt me
Fill your belly up with all that raging fury
What do you become and what do you make of me?Blindly follow to tomorrowHear the signal in the air-air
A battle cry, so you beware-are
And if we die, we came prepared-ared
Tonight we ride, we feel no fear-ear (x2)When the clouds roll in and start to cry, thunder crashes 'cross the sky
When the levi breaks from rising tides, we will never compromise
Fire burns behind our eyes, black of night is our disguise
When lightning strikes, be our guide
Flying low, rolling high
Without question in my mind when the options do or die
No surrender no goodbye, our time is now and that's how we rideThat's how we ride (x4)Hear the signal in the air-air
A battle cry, so you beware-are
And if we die, we came prepared-ared
Tonight we ride, we feel no fear-ear (x3)
