

Killswitch

Grinspoon

Despite all of the negatives

I still get up and, yeah, I still get down
No reason, I'm made of positives
And all you fuckers cannot turn me round
I like to watch you watch yourself

Turn that killswitch on yourself

Make it hard to watch

Find out you're wishing me true
Celebrate all of the positives
And everything will work itself out fine
Rock seasons are made of negatives
'Coz all you people see our dollar signs
I like to watch you watch yourself

Put that killswitch on yourself

Make it hard to watch

Find out you're wishing me true
You act like you, have been here before
No one wants to, tell you you're adored
You act like you, have been here before
I like to watch you watch yourself

Turn that killswitch on yourself

Make it hard to watch

Find out you're wishing me true
You act like you, have been here before
No one wants to, tell you you're adored
You act like you, have been here before
You act like you, have been here before
No one wants to, tell you you're adored
You act like you, have been here before
