

# D.N.D.

## Semisonic

DND

Now they'll leave us aloneDND

Now you turn off the phone

How like you to make the whole world disappear and

How like you to make everything seem so clear and

How like you to make me want to stay forever

Here behind your doorDND

Hang the sign on the door

DND

Don't disturb us no moreHow like you to make your love my hideaway and

How like you to make my troubles slide away and

How like you to make me want to play forever

Here behind your doorMinute I got some space and time I wanted to get me back in the crowd

Minute I got some peace you found me trying to make my way to the loud

What a clownDND

Leave the hotel at noon

DND

Will I see you soon?How like you to make the whole world disappear and

How like you to make everything seem so clear and

How like you to make me want to stay forever

Here behind your doorDND

DND

DND

Now they'll leave us alone
