

# Stay Golden

## Au Revoir Simone

I saw it coming  
I just thought that you should know  
I'm feeling better every day  
I'm only waiting if you stay  
So don't feel bad  
Your faith was an illusion  
And you're as loyal as your faith  
Will let you be Your expectation  
It's not hard to live without  
I'm feeling better every day  
And emptiness still leaves a space  
So don't feel bad  
You lost all your emotion  
And may you find all your relations  
Will keep you free A careless bird is complicated  
An empty nest still leaves a space
