

Choke It

The Asteroids Galaxy Tour

Smoke it, then choke it, don't slow down your speech[?]
Roll it, control it, gonna get high you see
Something's under that rock, flip it over say what (say what)
Something's under that rock, flip it over say whatThe tear drops of milk and cash
We're running to the river
This kingdom of golden ash
Will blow your mind nowLemme jump on that ride, I wanna be on your side
Oh gimme the flow, I wanna be on your show
I got you stalkin' my brain, you got me goin' insane
When all I want is to see, the rising of the sun
The rising of the sunSmoke it, then choke it, don't slow down your speech[?]
Roll it, control it, gonna get high you see
Something's under that rock, flip it over say what (say what)
Something's under that rock, flip it over say whatA mayhem of lust to see
To dive in deep forever
This cake show of mystery
Will keep your soul wildLemme jump on that ride, I wanna be on your side
Oh gimme the flow, I wanna be on your show
I got you stalkin' my brain, you got me goin' insane
When all I want is to see, the rising of the sun
The rising of the sunSmoke it, then choke it, don't slow down your speech[?]
Roll it, control it, gonna get high you see
Something's under that rock, flip it over say what (say what)
Something's under that rock, flip it over say what (say what)
Fl-flip it over say what (say what)
Fl-flip it over say whatWear your mask for the gallery, show them all what you wanna be
Spin around around around, around around around
Climb up high in the sugar tree, but don't get stung by the killer bee,
Spin around around around, around around around.Wear your mask for the gallery, show them all what you
wanna be
Spin around around around, around around around
Climb up high in the sugar tree, but don't get stung by the killer bee,
Spin around around around, around around around.
