

Wicked Sister (feat. MissEXP)

Rockit Gaming

Come on down
Underground
The shows about to start
I'm a mystery
Let's make history
I'll find you in the dark

And
Everyone's waiting
We can your beating heart

Listen to children cry
We're ripping them apart

[Instrumental part]

I'm an evil bitch
You'll wanna slit you wrists
I'm Freddy's wicked sis
Another deadly sin
Scream my name
The blood is running down your face
I'm Freddy's wicked sister
I'm an evil BITCH

Who am I
No information is up
At this time
That's right
2 pigtails
Like a bat outta hell
In a nutshell
I'm born to kill
Let me stuff you to the brim
You know it's gonna happen quick
And now you better make a wish
Because your fate is looking grim

You naughty kids
As you bleed out
I'll watch you twitch
Your throat is slit
I'm sassy yes I must admit
I'm still a filthy little bitch
Call me a robot that's betwitched
Metallic lussciousness

Hahahaha

[Instrumental part]

I'm an evil bitch
You'll wanna slit you wrists
I'm Freddy's wicked sis
Another deadly sin
Scream my name
The blood is running down your face
I'm Freddy's wicked sister
I'm an evil BITCH

Come on down
Underground
The shows about to end
I'm a mystery
Let's make history
We are not your friends
We are not your friends
We are not your friends
We are not your friends
