

# The Blind Stagger (Album)

## The Charlatans

Lord  
It's been a long time  
And people don't you find  
Always leave their troubles at your door  
I live on my own  
I don't need a bitter soul beatin on about my country anymore  
Don't you think your daddy needs you home right away? see it's about time, Can't you for once be strong  
I bleed a little to  
You're invisible, is there something I can give to you  
I see my light come shining  
There is good on the horizon  
Daylight sneaking through my window  
I will give you a rainbow and a bucket full of gold  
You been bitten by eleven hungry kittens  
Who will go the whole distance while the blind stagger? see Let the light shine, Could you for once be strong  
I bleed a little to  
You're invisible, is there something I can give to you  
I see my light come shining  
There is good on the horizon  
Daylight sneaking through my window  
I will give you a rainbow and a bucket full of gold  
You been bitten by eleven hungry kittens  
Who will go the whole distance while the blind stagger
