

# Go To the Well

## Dixie Melody Boys

Go to the well and drink the water  
Go to the well and taste new life  
Go to the well and meet the Father  
You gotta feel the feeling I felt go to the well, go to the well  
She had a bad reputation, she had often given in to temptation  
That's why she waited until evening came to go draw her supply  
But Jesus knew when she'd be there and He waited for her to arrive  
He offered her salvation water from the living well  
Right then she turned her life around and ran back into town to tell  
Go to the well and drink the water  
Go to the well and taste new life  
Go to the well and meet the Father  
You gotta feel the feeling I felt go to the well, go to the well

Just like that woman I was ashamed  
I was living my life for personal gain  
I found I had a thirst this world just couldn't satisfy  
But I'm so thankful that Jesus was still by the well side  
He offered that same water where I'd never thirst again  
And right then I turned my life around  
Now I'm telling you friend  
Go to the well and drink the water  
Go to the well and taste new life  
Go to the well and meet the Father  
You gotta feel the feeling I felt go to the well  
You gotta feel the feeling I felt go to the well  
Go to the well
