

# Coma

## Loretta Maine

Took a guy home on Friday like us bad girls tend to do  
Had too much Tequila and a dirty hot dog too  
When I woke up in the bedroom my head hurt so bad i cried  
But when I turned to him for comfort, well it turned out that he had died

I said, please be in a coma not dead with me alone  
Please wake up from this coma cus i donâ€™t know how to get your body home

I had to call for an ambulance, they asked me for his name  
I said itâ€™s Simon.. Steven.. maybe it began with a K  
The ambulance arrived real swiftly, they said i should go along too.  
So i went down to the hospital as Mrs Comadoo!

I said, please wake up for this coma, i donâ€™t know what else to say  
It would really help me if you woke up from this coma cus I got a lot to do today

The nurse said there was nothing more that they could do  
So they turned off the life support  
They needed my permission so i signed on their report  
And as the life machine let out that ??  
His wife came into the hospital and went straight for my throat  
She said, iâ€™ll put you in a coma, Iâ€™ll run you down with my car  
My stupid cheating husband wasnt in a coma, he suffers from sleep apnea!

So hereâ€™s a lesson for all of us, if you wanna go home with bad boys, be sure to check their medical certificates  
and go back to their place, not yours.  
So if he falls in a coma he wonâ€™t die in your bed, and then you wonâ€™t end up in a coma cus his wife kicked you  
the head  
Thirteen stitches!
