

Just Another Night

Wildside

outside my window,the rain begins to fall
memories of you and me,we had it all
now that your gone doesnt seem the same
i cant mend my broken heart,or ease the pain

ooh,but in my heart you will always be
ooh,but in my bed i feel you close to me
ooh,but in my dreams,love aint what it seems

just another night (all alone)
now that all your feelings have gone
too late for lovin baby,now i know
just another night(alone)

i remember times we made love like fools
the way it used to be,we couldnt lose
the day you said goodbye,the words you said to me
never been so hurt inside,so easily

ooh,but in my heart you will always be
ohh,but in my bed i feel you close to me
ohh,but in my dreams, love aint what it seems

just another night(all alone)
now that all your feelings have gone
too late for lovin baby,now i know
just another night (alone)

and through the tears,all the dreams have washed away
and through the years,i get stronger everyday....yeah

guitar solo

outside my window the rain begins to fall
memories of you and me,we had it all
but in my heart you will always be
but in my bed,i feel you close to me
but in my dreams,love aint what it seems

just another night(all alone)

now that all your feelings have gone
too late for lovin baby,now i know
just another night (alone) yeah

(just another night) well its just another night
(just another night) ohh just go on
(just another night) well its too late for love
(just another night) alooone, ooh
