

Set Free

Small Town Heroes

Say we got no ambition
but empty inhibitions never made me feel like this
No more school, no more classes
no more fake bitches with their hipster glasses
Say we're not gonna make it
but we're gonna get there we don't have to fake it
Oh no we won't let them take it
Yeah we're the ones that will make it
Woah we're the kids that will make it
It's time to, be set free
nothing comes between us and the summers breeze
As we dance to the rhythm of the street
and feel the sand beneath our feet
One day we'll remember
those times we shared together
We're making a scene as we
run through the streets singin'
Nah Nah Nah...
Letting loose at a party on friday night
friends are here and we're feelin' alright
No restrictions no restraints and we're
finally free of those sick little games that you play
And now we're starting to feel unique
as we dance away the worries of the week
Oh no we won't let them take it
Yeah we're the ones that will make it
Woah we're the kids that will make it
It's time to, be set free
nothing comes between us and the summers breeze
As we dance to the rhythm of the street
and feel the sand beneath our feet
One day we'll remember
those times we shared together
We're making a scene as we
run through the streets singin'
Nah Nah Nah...
