Get Mine

Tamar

As long as I get mine, it really don't matter to me
It really don't matter to me if I give you what I want
Give me what I want, hit me off and, baby, I'm straight
As long as I get mine, it really don't matter to me
It really don't matter to me if I give you what I want
Give me what I want, hit me off and, baby, I'm straight
Boy, I heard that your girl thinks that you are the one
I know she know about me and I don't care if she's
Hating me just as long as you keep getting me
Diamond rings and all those things that just makes me happy
As long as I get mine, it really don't matter to me
It really don't matter to me if I give you what I want
Give me what I want, hit me off and, baby, I'm straight
As long as I get mine, it really don't matter to me
It really don't matter to me if I give you what I want
Give me what I want, hit me off and, baby, I'm straight
Tell your girl don't call me, when she finds out that we
Go on trips, buy me gifts and all those things that she needs
It ain't my fault that you don't do all those things that I do
He's calling me, he's making you look like the one who's a fool
As long as I get mine, it really don't matter to me
It really don't matter to me if I give you what I want
Give me what I want, hit me off and, baby, I'm straight

As long as I get mine, it really don't matter to me
It really don't matter to me if I give you what I want
Give me what I want, hit me off and, baby, I'm straight
I don't wanna hear that you're only for me, oh no
And I, I don't want to be in her shoes, oh no need
So you just keep satisfying my needs
And I won't interfere with your girl and your world
And I will be right here
(As long as I get mine, as long as I get mine)
As long as I get mine, it really don't matter to me
It really don't matter to me if I give you what I want
Give me what I want, hit me off and, baby, I'm straight
As long as I get mine, it really don't matter to me
It really don't matter to me if I give you what I want
Give me what I want, hit me off and, baby, I'm straight

As long as I get mine, it really don't matter to me
It really don't matter to me if I give you what I want
Give me what I want, hit me off and, baby, I'm straight
As long as I get mine, it really don't matter to me
It really don't matter to me if I give you what I want
Give me what I want, hit me off and, baby, I'm straight
