

# Get Mine

Tamar

As long as I get mine, it really don't matter to me  
It really don't matter to me if I give you what I want  
Give me what I want, hit me off and, baby, I'm straight  
As long as I get mine, it really don't matter to me  
It really don't matter to me if I give you what I want  
Give me what I want, hit me off and, baby, I'm straight  
Boy, I heard that your girl thinks that you are the one  
I know she know about me and I don't care if she's  
Hating me just as long as you keep getting me  
Diamond rings and all those things that just makes me happy  
As long as I get mine, it really don't matter to me  
It really don't matter to me if I give you what I want  
Give me what I want, hit me off and, baby, I'm straight  
As long as I get mine, it really don't matter to me  
It really don't matter to me if I give you what I want  
Give me what I want, hit me off and, baby, I'm straight  
Tell your girl don't call me, when she finds out that we  
Go on trips, buy me gifts and all those things that she needs  
It ain't my fault that you don't do all those things that I do  
He's calling me, he's making you look like the one who's a fool  
As long as I get mine, it really don't matter to me  
It really don't matter to me if I give you what I want  
Give me what I want, hit me off and, baby, I'm straight

As long as I get mine, it really don't matter to me  
It really don't matter to me if I give you what I want  
Give me what I want, hit me off and, baby, I'm straight  
I don't wanna hear that you're only for me, oh no  
And I, I don't want to be in her shoes, oh no need  
So you just keep satisfying my needs  
And I won't interfere with your girl and your world  
And I will be right here  
(As long as I get mine, as long as I get mine)  
As long as I get mine, it really don't matter to me  
It really don't matter to me if I give you what I want  
Give me what I want, hit me off and, baby, I'm straight  
As long as I get mine, it really don't matter to me  
It really don't matter to me if I give you what I want  
Give me what I want, hit me off and, baby, I'm straight

As long as I get mine, it really don't matter to me  
It really don't matter to me if I give you what I want  
Give me what I want, hit me off and, baby, I'm straight  
As long as I get mine, it really don't matter to me  
It really don't matter to me if I give you what I want  
Give me what I want, hit me off and, baby, I'm straight
