

# Nobody Else

## Warrant

I fade to black, I turn to grey  
Whenever you have gone away  
I can't decide what I should eat  
Without you I am incomplete  
When you're back I have to say  
When I'm sick and tired, you make me well  
Any little thing, you I can tell  
You make me feel like nobody else  
Like nobody else  
Hold my breath till I turn blue  
Try to think of things to do  
Try so hard to watch TV  
It always ends up watching me  
Dying to see you  
When I'm sick and tired, you make me well  
Any little thing, you I can tell  
You make me feel like nobody else  
Like nobody else  
Ohh, like nobody else, nobody else  
No, oh, no, oh, nobody else

I fade to black, I turn to grey  
Whenever you have gone away  
When you cry it hurts like hell  
If you die I kill myself  
When I'm sick and tired, you make me well  
Any little thing to you I can tell  
You make me feel like nobody else  
Like nobody else  
Yeah, oh, yeah  
When you make me feel well  
Any little thing on my mind to you I can tell  
Ohh, you make me feel like  
Nobody else, like nobody else  
Nobody makes me feel like you do  
Makes me feel like you do  
Makes me feel like you do  
Makes me feel, yeah, nobody else  
Ohh, nobody makes me feel

Nobody makes me feel
