

Turn Around

Mario Winans

Oh baby
Oh babe Everything you said to me
Tell me was I bugging, dreaming
'Cuz it's not that real to me
There has been no sleeping
I've been thinking of how I Begged to love me
Now you want to leave me
And it hurts me deeply inside
Oh baby how I
Want to touch you
And I need to hold you
Baby, stay with me one more night
One more night Turn around and take just one more look
See if you're really sure
That you can walk away
From my love
I'm begging you to stay
Down on my knees to pray
That you will turn around and be my baby All the moments that we shared
You could never put a price on us
I tried to trust in you
After all of this I've deered
You say that you are leaving
Have you been thinking of how I Begged to love me
Now you want to leave me
And it hurts me deeply inside
Oh baby how I
Want to touch you
And I need to hold you
Baby, stay with me one more night
One more night Turn around and take just one more look
See if you're really sure
That you can walk away
From my love
I'm begging you to stay
Down on my knees to pray
That you will turn around and be my baby Just when I give in, your leaving
Don't walk away from my love
Can't go a day without your love

Your all I'm dreaming of Just try again, believe me
This is where love begins
Don't wanna here you say
That you wanna walk away Turn around and take just one more look
See if you're really sure
That you can walk away
From my love
I'm begging you to stay
Down on my knees to pray
That you will turn around and be my baby Turn around and take just one more look
See if you're really sure
That you can walk away
From my love
I'm begging you to stay
Down on my knees to pray
That you will turn around and be my baby Turn around and take just one more look
See if you're really sure
That you can walk away
From my love
I'm begging you to stay
Down on my knees to pray
That you will turn around and be my baby
