Girls & Boys

The Subways

The world is always some kind of daydream
Another message that they just don't see
I won't forget the day you said
The simple things they are the best
I'm just a kid, an alien among the people

The girls and boys
The girls and boys
The girls and boys

The girls and boys
The girls and boys
The girls and boys

Another statement, another daydream
Why do you always say what you don't mean?
I won't forget the day you said
The simple things they are the best
I'm just a kid, an alien among the people

The girls and boys
The girls and boys
The girls and boys

The girls and boys
The girls and boys
The girls and boys
Yeah, yeah
