

The Flame Passes On (From "Highlands")

White Heart

Fire on the arena floor
The swords are drawn,
 Hear the lions roar
The coliseum laughs and shouts
 And screams for more
They tried to crush this mutiny
 In a crimson tide of history
 But when people have seen
 The truth that sets them free
 The flame passes on,
The flame passes on and onFrom the heart of the people
 Comes love for the people
 Love that is burning strong
 Oh, from one to another
 This dream of forever
The flame passes onBecause of them we know His Name
 So let's lift the cross, and do the same
 An unbroken line of believers
 Building a human chain
 And the flame passes on,
And the flame passes onand onFrom the heart of the people
 Comes love for the people
 Love that is burning strong
 Oh, from one to another
 This dream of forever...
The flame passes onOh, the light of ages illuminates the pages
 Words of an ancient song
 Oh, faith is the fire
 That burns ever higher
And the flame passes onMothers to sons,
 Fathers to daughters - everyone
Pass it onFrom the heart of the people
 Comes love for the people
 Love that is burning strong
 Oh, from one to another
 This dream of forever...
The flame passes onOh, the light of ages illuminates the pages
 Words of an ancient song
 Oh, faith is the fire

that burns ever higher
And the flame passes onFeel the flame in your heart
Then pass it on
