

Gettin' It On

Lucy Woodward

Come and pull up a chair, I want you facin' me
You're a long way from home now
You got your hand on my heart
And it's pumpin' to somethin' stronger
Can you feel it?
And it's me, who will kick it and let it slide
What I need is to hit it, I can't let this pass me by
We both keep playin' where we don't belong
'Cuz every time you keep turnin' me on
We both believe what we want to
But way down deep we've known it all along
So we just keep on gettin' it on
We're hangin' out, I wanna play and I'm goin' crazy
'Cuz I'm hangin' on and I can't wait for you
I wanna rock you, baby
And it's me, who will keep it bottled up inside
I try to pretend, but I can't help the feelin' this vibe
We both keep playin' where we don't belong
'Cuz every time you keep turnin' me on
We both believe what we want to
But way down deep we've known it all along
So we just keep on gettin' it on

Yeah, we just keep on gettin' it on
So we just keep on gettin' it on, on, on, on yeah
I'm slippin' down and I'm sinkin' fast
But I like it, I like it, I like it
We both keep playin' where we don't belong
'Cuz every time you keep turnin' me on
We both believe what we need to
But way down deep oh no, no, oh oh
We both keep playin' where we don't belong
'Cuz every time you keep on turnin' me on
We both believe what we want to
But way down deep we know, we know
We both keep playin' where we don't belong
'Cuz every time you keep on turnin' me on
We both believe what we want to
But way down deep we know, we know, we know

So we just keep on gettin' it on
So we just keep on gettin' it on
So we just keep on gettin' it on
So we just keep on gettin' it on
