

# Fast As I Can

## Stone Temple Pilots

She don't even like you anymore  
She don't even like you anymore  
Ain't no chance she loves you like before  
She will even take you to the mall Gotta, gotta, gotta now find a way  
Gotta, gotta, gotta now find a way  
Gotta, gotta, gotta now find a way  
Now pick up the song, there's some to say  
Now way, way, way, way, way, way, way, way I'm alone, I'm feeling, oh, so low  
I'm feeling, oh, so high  
Why, why, why am I cryin'? Running fast to the liquor store  
I quickly hit the wall  
And stumble through the open door  
Through the open door I can't get on that [Incomprehensible] anymore  
I can't buy you fancy yogurt anymore  
When it comes to me and you, it's all just business like before  
And I walk a mile and a half for you no more, no, no Gotta, gotta, gotta now find a way  
Gotta, gotta, gotta now find a way  
Gotta, gotta, gotta now find a way  
Now pick up the song, there's some to say  
Now way, way, way, way, way, way, way, way I'm alone, I'm feeling, oh, so low  
I'm feeling, oh, so high  
Why, why, why am I cryin'? Running fast to the liquor store  
I quickly hit the wall  
And stumble through the open door  
Through the open door Up on the wall I saw an alley cat  
She had heels six feet tall and she towered over all  
I learned my lesson well, I think we learned our lesson well  
Maybe more, maybe more  
Maybe more, maybe more, maybe more I'm alone, I'm feeling, oh, so low  
I'm feeling, oh, so high  
Why, why, why am I cryin'? Running fast to the liquor store  
I quickly hit the wall  
And stumble through the open door  
Through the open door
