

Conspiracy

Shades Apart

I have a theory to explain
Why my bad luck gets worse each day?
It's easy, someone must be out to get me
It's a diabolic scheme This conspiracy is givin' me the creeps
The big conspiracy Hey, it's just coincidence you say
When I go out it always rains
Believe me, someone's playin' games with my brain
It's a diabolic scheme This conspiracy is givin' me the creeps
The big conspiracy
Now, I'm ready to believe
The big conspiracy, yeah Someone must be out to get me
It's a diabolic scheme This conspiracy is givin' me the creeps
The big conspiracy
Now, I'm ready to believe
The big conspiracy, yeah Are you ready to believe?
Are you ready to believe?
Are you ready to believe?
Are you ready to believe?
