

Run Run

Beatsteaks

Back it up and we don't care what you say
Making promises to break 'em today
Find new rules to justify our goal
Are you ready for a second of soul? We're lying faster than you find out the truth
So there's nothing to chose
And if you get yourself to what we're about
Don't say a thing, we're just a word in your mouth You've got nothing but you never ask me
If we'll make it through just be ready if I want you
To when I say run, we are back
And we will get you my friend
Any lies will be the truth in the end Stop believing, are you ready for a second of grace?
We are back and we will get you
My friend, any lies will be the truth
In the end, stop believing
