

If You Wanna Go

Joy Williams

If You Wanna Go

written by Joy Williams, Jamie Kenney & Ben Glover

One more time

sitting in a silent stare

and I'm the only one that's here

Let's just get it all out

Gimme every single word

even if it's gonna hurt...

Cuz too many nights

falling asleep

with all of these doubts

stuck in between us

being polite is getting us nowhere now...

So if you wanna stay, just stay

if you wanna go, if you wanna go

just go

So if you wanna stay, just stay

if you wanna go, if you wanna go

just go

go far away, go far away...

so let's just fight

maybe you could find some tears

and I could feel something real again

you and i know we need to figure this out

tell me is it too late now...

Cuz too many nights

falling asleep

with all of these doubts

stuck in between us

being polite is getting us nowhere now...

So if you wanna stay, just stay

if you wanna go, if you wanna go

just go

So if you wanna stay, just stay

if you wanna go, if you wanna go

just go

go far away, go far away...

We built too much just to stand and watch it fall apart...

It hurts too much just to stay the way we are...

So if you wanna stay, just stay
if you wanna go, if you wanna go
just go

So if you wanna stay, just stay
if you wanna go, if you wanna go
just go

go far away, go far away...
