

Stop Me

Donna Summer

I-I-I was weak and I was blind
You know I never ever wanted to put our love on the light
You were right, I-I-I was wrong
I should have listened to the words you said but I was too headstrong
So if you've heard this all before
Don't let me carry on no more
Stop me, stop me if you think you've heard this one, this one
Stop me, stop me if you think you've heard this one
Stop me, stop me if you think you've heard this one, this one
Stop me, stop me, stop me
You say I lied, you say I cried
But I had to say something fast in case you threw me aside
I didn't know, I couldn't guess
If I only would have known I never would have been in this mess

But if you've heard this all before
Don't let me carry on no more
Stop me, stop me if you think you've heard this one, this one
Stop me, stop me if you think you've heard this one
Stop me, stop me if you think you've heard this one, this one
Stop me, stop me, stop me
But if you've heard this all before
Don't let me carry on no more
Stop me, stop me if you think you've heard this one, this one
Stop me, stop me if you think you've heard this one
Stop me, stop me if you think you've heard this one, this one
Stop me, stop me if you think you've heard this one, this one
Stop me, stop me if you think you've heard this one, this one
