

# Never Be You

## Celeste Buckingham

I'll never be like you  
You know that I've tried to  
But no one can touch you  
Whatever I do, I'll never be you Could wear the right faces  
Be in all the right places  
Saw myself to be famous as you  
Wouldn't do, I'll never be you I could be a movie star  
My star right on the boulevard  
Still won't get to where you are  
You're perfect, it's true, I'll never be you Just to let you know Yeah, yeah  
Nothing lasts forever, so  
Yeah, yeah  
Don't think you own the world  
You never will, you never can, sorry, you don't understand  
But baby, all I know is I will never be you Play all the right cards  
You're the one on the top charts  
You're everyone's sweetheart  
They like what you do, but I'll never be you You say I'll be happy  
If I do what you tell me  
But you don't even hear me  
So I say that we're through and I'll never be you I could be a movie star  
My star right on the boulevard  
Still won't get to where you are  
You're perfect, it's true, I'll never be you Just to let you know Yeah, yeah  
Nothing lasts forever, so  
Yeah, yeah  
Don't think you own the world  
You never will, you never can, sorry, you don't understand  
But baby, all I know is I will never be you I'm a shooting star and I play the part  
But you push too far  
When I crash and fall, you don't care at all  
So now I'm standing tall  
Yeah, yeah Yeah, yeah  
Nothing lasts forever, so  
Yeah, yeah  
Don't think you own the world  
You never will, you never can, sorry, you don't understand  
But baby, all I know is I will never be, never be you Yeah, yeah  
Nothing lasts forever, so

Yeah, yeah  
Don't think you own the world  
You never will, you never can, sorry, you don't understand  
But baby, all I know is I will never be, never be you
