

Euthanasia Day

Dayglo Abortions

my old man is getting in the way but the government decided he's gonna die anyway. i'm not into colostomy bags so i'm gonna get rid of that dirty old fucking hag. we don't need the sick and the weak. stephen hawkins in a geek. so push him out in the street. it's euthanasia day. i'm tired of cooking mashed potatoes and mush peas all day. that stupid old fart said my mohawk looks gay for one in my life the cops have nothing to say. 'cause the government decided your all gonna die today. we don't need the sick and the weak. bill gates is a geek so push him out in the street it's euthanasia day.
