

# Nocturnal Emission

## Anathema

My passions rise..... a twilight ride  
Stark light of dark night in my eyes  
My forlorn lust.....  
My soul it burns  
My forlorn lust.....  
My soul is burning  
Take you now, in my sleep  
I want to touch you, to scratch you deep  
To leave you scarred.....  
To see you burn  
To leave you scarred.....  
To see you burning
