

# What a Fool I've Been

[Crystal Lewis](#)

lonely days gone by without you in my life  
even though i've tried so hard i do  
don't forget what you learned along the way  
talk to him and keep him close to you  
i've lived dangerously  
not noticing at all what i quickly could become so soon  
He is always there  
He's always been around  
you will see Him when you change your viewwhat a fool i've been  
what a fool i've been  
just to think that i  
can live my life  
like time is on my sidei could not see through all the pain i caused  
i was lost for my sin blinded me  
we serve a great God  
for when we turn away  
He remains so faithfully close to youwhat a fool i've been  
what a fool i've been  
just to think that i  
can live my life  
like i would never die
