

What If

PureNRG

What if I was a cheerleader?
What if I was the girl next door?
What if I was a rock star?
What if I was something more? What if I was an astronaut?
What if I was stuck on the ground?
What if I was the president?
What if, what if? What if, what if doesn't matter?
What if, what if doesn't matter?
With Your love I can be anything What if, what if doesn't matter?
What if, what if doesn't matter?
With Your love I can be anything What if I was a big time film star?
What if I ran a restaurant?
What if I found a cure for cancer?
What if I got everything I want? What if I was a fashion model?
What if I was a scientist?
What if I was a super bowl quarterback?
What if I had none of this? What if, what if doesn't matter?
What if, what if doesn't matter?
With Your love I can be anything What if, what if doesn't matter?
What if, what if doesn't matter?
With Your love I can be anything I think there's too many questions
Of how, what we're supposed to be
I think there's just too much pressure
What if somehow everyone could see? What if, what if doesn't matter?
Oh, oh, what if, what if doesn't matter?
What if, what if doesn't matter?
What if we could let the whole world see that? What if, what if doesn't matter?
What if, what if doesn't matter?
With Your love I can be anything What if, what if doesn't matter?
What if, what if doesn't matter?
With Your love I can be anything
