Love at First Sight

Don Vedda

I want you close to me
Right here next to me
Can't let you get away
Can't let you get away

C'mon
Oh what she does to me
Got me on my knees
She with me in my dreams
Girl's the hottest thing I've ever see

Hooked me like 1 2 3
She's coming home with me
Sexy whispering
Tonight's the night
The night
I don't know what she did to me
What will it take to make you believe?
The way you move has got my head spinning

[Chorus]
Love at first sight
Girl, you make me feel so alive
Love at first sight
I can't get you off my mind

The way she move
The way she walk
The way she talk
Got me in love
Got me in love
And I, I'm in a rush
To take you home
To take control
Give me your lust
Don't slow my roll tonight
Let's set this night on fire
Come on girl take me higher

Oh what she does to me

Got me on my knees
She with me in my dreams
Girl's the hottest thing I've ever seen

Hooked me like 1 2 3
She's coming home with me
Sexy whispering
Tonight's the night
The night
I don't know what you did to me
What will it take to make you believe?
The way you move has got my head spinning

[Chorus]
Love at first sight
Girl, you make me feel so alive
Love at first sight
I can't get you off my mind

I want you close to me
Right here next to me
Can't let you get away
It's just the way you move girl
Oh my god

[Chorus x2]
Love at first sight
Girl, you make me feel so alive
Love at first sight
I can't get you off my mind

The way she move
The way she walk
The way she talk
(It's just the way you move girl)
I'm in a rush
To take you home
To take control
(Oh my god)
It's just the way you move girl
