Remember Me

Kutless

I looked in Your eyes and saw it for a moment
The passion in Your cry, the chains of life are broken
Put to death by Your people, You came to bring us life
Only hope for the hopeless, will You remember me?
I've been ashamed, I've been put down
Head in my hands, my life on the ground
Left Heaven to save liars and thieves
Sinners like me, Your blood sets us free
Who am I that You would remember me?
Spent all of my years stealing from the world
With everything I had yet I was still so poor
You have everything to lose, but You're dying here with me
I believe, I believe, will You remember me?
I've been ashamed, I've been put down
Head in my hands, my life on the ground
Left Heaven to save liars and thieves
Sinners like me, Your blood sets us free
Who am I?
Take what I have left, my Savior
Take me with You from this cross
When I leave this life completely
Remember me
I've been ashamed, and I've been put down
Head in my hands, my life on the ground
Left Heaven to save liars and thieves
Sinners like me, Your blood sets us free
I've been ashamed, and I've been put down
Head in my hands, my life on the ground
Left Heaven to save liars and thieves
Sinners like me, Your blood sets us free
Who am I that You would remember me?
