

# Queen of Cans and Jars

## Guided By Voices

To see the light and try but fail  
On jagged seas that can't be sailed  
And sought to lead but always trailed  
Asked questions anyway And all around the breeding grounds  
The nymphs sweetly played  
The queen of cans and jars will keep them safe To be so keen on global trend  
To be so tight on how and when  
To scratch and claw until the end  
To work for each new day  
And all around the hunting ground  
The dead were on display  
The queen of cans and jars will keep them safe  
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
