

Long Distance Call

David Gray

If I lean my weight on it
If I fix my heart to the line
Might find a way from it
To some easy time My skins all white with it
I'm up so high when I fall
I fall so far from it
Ain't nowhere at all Early morning sun
Shine it and I'm gone
To plane out and on the lake
Hey hey, yeah yeah To glide out on the wing
Turn around and sing
The fear now taking hold
Hey hey, yeah
I'll bring you love but it's all been sold My heads all wired with it
My tongue gets tied when I speak
The space inside roaring
When that signal break Early morning sun
Shine it and I'm gone
To plane out and on the lake
Hey hey, yeah yeah To glide out on the wing
Turn around and sing
The fear now taking hold
Hey hey, yeah
I'll bring you love but it's all been sold
