Wasteland

Poison

Alone on my steel horse I ride
The engine echoes in the night
Through a concrete jungle a wasteland I call home
No fears and no regrets
No apologies for the things I've said
And believe me child it's the life I've known
I will ride on through the night
From this hell I will survive
It's all I've done it's who I am
Just know this I've done the best I can
I see fallen angels and broken dreams
I still surviving on these streets
Like forgotten soldiers left here to die
All your pain I understand

Give me your love you take my hand
And from this wasteland we will ride
We will ride on through the night
From this hell we will survive
Give me your faith give me your hand
All I know we've done the best we can
I will ride on through the night
From this hell I will survive
It's all I've done it's who I am
Just know this I've done the best I can
We will ride on through the night
From this hell we will survive
Give me your faith give me your hand
All I know we've done the best we can
