## Winter's Love

I love this light in winter time,  
The frost cakes in the carpet  
in winter time we'll have our ways  
tombstones the mean belong in  
No falls snowfalls that ruin my day  
Its masked up from the street wire  
and winters glow where could she be  
Shes warm underneath my pocket  
Just a calm and modern day  
In early, early morning  
Rush to her, and rush to him,  
Am I a better person?  
even in the whole take on  
the loss is better said  
I pulled the boy out of above  
She made that boy a man
