

Erased and Forgotten

Skeletonwitch

I as the shadow, from chaos I descend
Prepare to be parted from your flesh
The foul stench of fear now surrounds you
I leave you a soulless husk of manRunning wild consumed with blood
A cold chill creeps from my spine
Your face erased, forgotten
Removed from the eyes of timeI shall right your wrongMy hands tremble
Not with fear, but with desire
To Still the heart that beats in your chestThrough the power of blood-laced vengeance
I am to punish your flesh
Deliver unto you eternal darkness
Crushing, killing, bring you to your deathYour complete annihilation
From my hand to your tomb
Against the will that cannot be stopped
My vengeance is now your doom
