

The Kids Don't Like It

Reel Big Fish

Got some words, I don't know
Gonna sing 'em here I go
Wanna try not to be lame
Wanna make you feel the same
I just wanna be someone Don't you know we tried to do something new
That it may sound real good
But I don't think we're getting through Because the kids don't like it, no, no
The kids don't like it, no, no, no
The kids don't like it
No they don't like it at all I said the kids don't like it, no, no
The kids don't like it, no, no, no
The kids don't like it
No they don't like it at all, anymore Had a hit, famous? No
Easy come, easy go
Should be happy with what I got
Should be happy but I'm not
I just wanna be someone Don't you know we tried to do something new?
It may sound real good
But I don't think we're getting through Because the kids don't like it, no, no
The kids don't like it, no, no, no
The kids don't like it
No they don't like it at all I said the kids don't like it, no, no
The kids don't like it, no, no, no
The kids don't like it
No they don't like it at all I thought there'd come a day
When I'd run out of things to say
But now I know it's true
No one listens anyway, yeah All we wanted was to do something new
It doesn't sound so good
And I know we're not getting through Because the kids don't like it, no, no
The kids don't like it, no, no, no
The kids don't like it
No they don't like it at all I said the kids don't like it, no, no
The kids don't like it, no, no, no
The kids don't like it
No they don't like it at all I said the kids don't like it, no, no
The kids don't like it, no, no, no
The kids don't like it
No they don't like it at all, anymore
