# Sails

## Megan Slankard

You call you call
The tvs up the lights are on
You say you say
I miss you how work was today
Youre gone youre gone
Some corporate thing away from home
Though I know I know
I ask when you return againIts just I need a little
extra sun these days
Or a few hours sleep
to take more time awayI need a little push
I wanna go higher
I need just a little bit of wind
Ive just not been myself
How bout a little push
Im sittin in a puddle
I could use a little bit of wind
To put back in my sailsI walk I take a walk its nice
When you break things down
Things are all right
I guess I need
Something to get me out of thisHow about a push?
I wanna go higher
Things seem to be okay here
Ive just not been myself
Give us a push
Sitting in a puddle
I could use a little bit of wind
To wrap around my sailsIts just I need a little
extra sun these days
Or a few hours sleep
to take more time awayHow bout a push
Or news from the outside world
Days go on as usual
Ive just not been myself
I need a little push
A bit of inspiration
I could use a little pick-me-up
To get the wind back in my sailsA push

Just sitting in a puddle
I need just a little wind
To wrap around my sails
