

# Who's to Blame

## Broken Bones

Written by kim wilde & tony swain  
Just like in a dream  
I'm trying to scream  
But no-one can hear me when I call  
I feel paralysed  
Unable to cry  
While watching the world around me fall  
Heard it on the news today  
What are we doing to our world  
There's got to be a better way  
And we've got to choose it  
And while we destroy  
Our children will grow  
Not missing the things they'll never know  
A crime against them  
Against you and me  
A crime against all humanity  
Heard it on the news today

What are we doing to our world  
There's got to be a better way  
And we've got to choose it  
Don't you know that a day will come  
To everyone  
When they'll ask us to explain  
Are we going to say that we weren't to blame  
Who else could there be  
Just like in a dream  
I'm trying to scream  
I feel paralysed  
Unable to cry  
What are we doing  
Heard it on the news today  
What are we doing to our world  
There's got to be a better way  
Or we're gonna lose it  
Who's to blame?
