

Enemy

Dead!

Show me the way you break, girl,
Show me the way you f-f-fight
You're a cavalier for all those lost at sea
And I'm renegade ship, that passes in the night(All head on)
All hands on deck, this is not a drill You told me that there's more underneath,
So I gonna sink this ship, watch you fall to your knees, is it worth it? When the hands on the clock finally stike
out
Are you gonna have the stories of us to write about There's a fire under bow and we're going down
Would it kill to have some empathy with every word you said to me
You're a liar and a con, and, oh, you're a thief
Fight back all memories you're nothing but an enemy
My fist against a wall, now darling
Your morals against mine
Well, I can only take high ground, sugar, if I could waste your time It's been a long time commin', but it's time
that you paid,
Your debts, off, honey, for the way that you played
Long time commin', but it's time that you paid,
Your debts, off, honey, for the way, the way There's a fire under bow and we're going down
Would it kill to have some empathy with every word you said to me
You're a liar and a con, and, oh, you're a thief
Fight back all memories you're nothing but an enemy There's a fire under bow and we're going down
na na na na na na na
There's a fire under bow and we're going down
na na na na na na na With that look in her eye and a knife in her hand
It's enough to make us want to swim back to land
The capetan jum ship the bow is on fire,
The bow is on fire, the bow is on fire There's a fire under bow and we're going down
Would it kill to have some empathy with every word you said to me
You're a liar and a con, and, oh, you're a thief
Fight back all memories you're nothing but an enemy
There's a fire under bow and we're going down
na na na na na na na
There's a fire under bow and we're going down
na na na na na na na
There's a fire under bow and we're going down
na na na na na na na
There's a fire, There's a fire, There's a fire, There's a fire
There's a f-f-f-fire under bow
