

Love at First Sight

Styx

Driving past your house again I feel the same way I did then

I get weak, just thinking about you

It all began so easily a look from you a glance from me

Then our eyes met like thunder and lightning You and I

Strangers lost in a moment

Eye to eye

We were caught unaware of the passion inside us Love at first sight, I know that this can't be happening

No, not to someone like me

Love at first sight, so rare, and so exciting

Only hope this love we found can last I'm not a man who acts this way but lately I can't concentrate

And I don't sleep, just dreaming about you

I try to reach you on the phone but voices there say you're not home

My heart aches, thinking I've lost you One more time

Seeing your face in the moonlight

One more chance

To be caught unaware of this passion inside us Love at first sight, I know that this can't be happening

No, not to someone like me

Love at first sight, it's hard to keep your balance

Moving past the point of no return If you need some time

To understand your feelings

If you need some time away

I'll be waiting for you with open arms my love All that night

We made love in the moonlight

Eye to eye

We were so unaware of the passion inside us Love at first sight, I know that this can't be happening

No, not to someone like me

Love at first sight, it's rare, and so exciting

I only hope this love we found can last Oh I only hope this love can last, can last
