

Let's Ride

Sabre

I'm goin' crazy do you want to come?
I've been so up, then down, m-m-my minds getting' numb.
The gears are slippin' through overdrive
You scare the hell out of me, but keep me feelin' alive.
Had my head on sideways, you turned me around.
I'm so high now babe, I'm scared to look down.

Let's ride,
Let's ride,
Let's ride, I can't pretend,
Twist all the rules we can bend,
Gonna take you for a ride that never endsâ€¦

A little frightening, a little strange
My whole life's starting to rearrange.
Can't contain myself, my mind is screamin'
Hold me tight and tell me I'm not dreamin'
You're as scared as me, I see it in your eyes.
Do what I do, take it all in stride and

Let's rideâ€¦let's rideâ€¦
