Burn

Madi Diaz

Love
Come out wherever you are
Love
No headlight driving in the dark
How am I supposed to find my heart
Love
Speak quiet, barely make a sound
Come closer now
Come near so I can find you out
So i can have you now
(Chorus)
Love
I'm the one that bring you out
Now all I want is for you to show me how
Come out wherever you are
Come out come out wherever you are
Hello
Its been a while since I spoke your name
But i remember now
How its like to feel you in my veins
How am I supposed to feel the same

Love
I'm the one that bring you out
Now all I want
Is for you to show me how
Come out wherever you are
Come out come out wherever you are
Theres too many stars
Reachin' over the horizon
Let 'em burn out (x2)
Theres too many stars
Reachin' over the horizon
Let 'em burn out (x2)
Theres too many stars
Reachin' over the horizon
Let 'em burn out (x2)
Theres too many stars
Reachin' over the horizon

Let 'em burn out (x3)
Let 'em burn
