Led You On

Noel Gourdin

I know you feel my hands on your hips
Girl its turns me on,
Just to feel the touch of your lips
Even though inside I know I'm wrong

[Bridge]
See I know you love me
Somewhere deep in your heart
Girl if I do this much longer
That feeling get stronger

[Chorus]
Promise you that this ain't right
Thats why this is my exit from you r life
I've been lying to you for too long
Girl I'm sorry that I lead you on
Lead you on [Repeat: x3]

Even though you give me all your good lovin'
It don't mean a thing
Cause no matter how hard you try
I cant see myself never bringing you a ring
See I know you love me
I know you do
Somewhere deep in your heart
If I do this much longer the feeling gets stronger

[Chorus]

I make you believe that I would be your everything
So you bought that dream
Now I'm refunding you, your feeling for the truth

[Chorus: x2]

Girl I'm sorry that I lead you on
Lead you on [Repeat: x3]
Girl I'm sorry that I lead you on
