This pain is temporary  
Don't let it rule today  
Stand up and rise against this Here's to a brighter day Hello, my friends  
We're here once again  
We're here beginning til the end  
It is essential Gather all your friends  
And I will gather all my friends  
We'll be as one  
We are the children of the sun If you were blue as Monday  
Come with me and share  
Share my fun day And all will be forgiven  
Cause it breaks your heart to see  
And all will be forgotten  
Forgotten Gather all your friends  
And I will gather all my friends  
And we will make it much better  
Yes we will make it much If you were blue as Monday  
Come with me and share  
Share my fun day And all will be forgiven  
And all will be  
And all will be forgotten  
And all will be
