

# A Guide to Marine Life

## Falling Up

Float by open windows  
What a shipwreck, what a shipwreck  
Circles running through my veins  
With the vate set, with the vate set See the lines, see the lines, I start feeling  
When I'm lost, when I'm lost, there's no meaning  
Call it this, call it this  
Spinning sideways, never stops Lines in the sky  
Calling me out, calling me out  
Constant collide  
Calling me out, calling me out Float by open windows  
What a shipwreck, what a shipwreck  
Glass flies all around me  
Now my veins let, now my veins let Lines in the sky  
Calling me out, calling me out  
Constant collide  
Calling me out, calling me out Call to the trees  
There are ways no one sees  
Call to the trees  
There are ways no one sees Lines in the sky  
Calling me out, calling me out  
Constant collide  
Calling me out, calling me out
