Twilight zone, twilight zone Sean Garrett, Future, Trigga Trey, move it Early in the morning, I seen what you

She just toot that thang up
As you know what we doing
Girl you too much, sexy as a mother
Love it when you put that knife to my neck and dare me to fuck another
You know you my angel, spread your wings and open up
Never will I disrespect or let a bitch fly above
Now there might be a few on the side, but you know you the one
I'm gon' have you blowing in the house like a bomb
Give me what I want, I'll give to you what you like
I got that what you pop em pop em what's that gon' feel like
Have you ever been on Pluto
Well I'm bout to make you fly
Once you move them Vickis to the left,
I'm bout to get up inside
Like get it baby, bikinis around, well bring them in
We can shoot a feature with you directing your friend
Careful with that baby, got to take your time
Now look at me when you do that, so I can blow your mind Girl you know it ain't no laying down,
Get on all fours (Get on all fours) lay on my floor
We ain't gotta do that mouth to mouth oh
You so sexy, and that shit you on
Girl the way you drop that, got me in the twilight zone
You so sexy, that freaky shit you on
Girl the way you drop that, got me in the twilight zone Check this, it started off a one night with the freaking on
the weekend
Ever since we hooked up, we been making movies from the begin
Got my mojo and my ego on a Peruvian kilo
With a face like that, I can't even see myself telling you N-O
You got my full attention, I fuck with you to the fullest
You got my heart racing faster than a speeding bullet
I can't explain what I'm gonna say to you, you got me fumbling
That ATL I got it on my back, you know I run it
Hey, come here, you know I'mma let you run it with me
I'mma get the cash and you can spend it with me
I'm living in the spotlight, I see stars all in my eyes sight
And my life is out of camera, but you got me in the twilight Girl you know it ain't no laying down,
Get on all fours (Get on all fours) lay on my floor

We ain't gotta do that mouth to mouth oh
You so sexy, and that shit you on
Girl the way you drop that, got me in the twilight zone
You so sexy, that freaky shit you on
Girl the way you drop that, got me in the twilight zone
You so sexy, and that shit you on
Girl the way you drop that, got me in the twilight zone
You so sexy, that freaky shit you on
Girl the way you drop that, got me in the twilight zone
